HigherTrek

Experiences for ordinary
young men who want to
live an extraordinary life
for Jesus Christ.

What makes us different?

- Small Group Sizes: 5 - 8 young men per program.
- Months of FaceTime calls with each group to prepare them for their time together.
- A culture of vulnerability, where everyone shares and everyone is heard.
- An adventure experience at every program.
- A curriculum that addresses challenges young men face as they own their faith and transition into adulthood.
- We help young men discover their role in the great commission and their role in their local church.
- Each young man is off-ramped at the end of our program to meet their individual needs, including providing mentors in their area to continue investing in them.
- Annual programs exclusively for our alumni to revive and encourage their discipleship.

"I'm convinced that this is the best model in the U.S. for discipling young men."

- **Glenn McMahan**, Chairman of The Global Commerce Network, and father of a 2017 alumnus

Why HigherTrek?

Since 2004 our vision has been to see young men take ownership of their faith and walk with Jesus for a lifetime.

9.3 million young men (ages 18-24) in the United States identify as Christian. Jesus calls them to make disciples. The unfortunate reality is, many won't until they experience discipleship for themselves.

- 1% of church leaders say today's churches are doing very well discipling new and young believers.
- 60% of church leaders say they are not doing well discipling new and young believers.
- Only 17% of practicing Christians say they meet with a mentor as part of their discipleship efforts.

"In Christianity today there is either a lack of true conversion or a lack of real discipleship. That's why I'd rather teach these groups than speak to a thousand. The fruit from past years is proof of its profound value. They invest in the future of the kingdom"

- **Dr. Jerry White**, The Navigators International President Emeritus, Major General USAF, Ret.
